

CLIMATE CHANGE: *Real or Imagined*

*“Earth has enough to satisfy every man’s need
but not enough for every man’s greed,”*

—Mahatma Gandhi

Physicist, Dr. Fred Singer, opened Pandora’s Box with his book, *Hot Talk, Cold Science*. Using scientific data, he debunks historical climate data, [Hot Talk, Cold Science \(2021\) Global Warming’s Unfinished Debate \(Revised and Expanded Third Edition\)](#)

But a documentary film entitled, *Merchants of Doubt*, exposes Dr. Singer and other “climate deniers” as being financed by big oil. [Leaked Email Reveals Who’s Who List of Climate Denialists](#).

So, who’s right? Climate debunkers or climate alarmists? Factoids fly from the right and the left? And most of us don’t know enough science to know who’s right.

But the Bible has a lot to say about climate change. And it gives us some critical warnings about its implications for the world’s future.

The Alarmists

Job One for Humanity

<https://www.joboneforhumanity.org/>

“You cannot be called an alarmist if there really is something to be alarmed about.”

[Why we have only 3-9 years left to get the climate change extinction emergency under our control](#). **This blog tells us:**

1. **The major global warming consequences will continue to intensify and cross-react as heat rises.**
2. **The global consequences of climate heat-up will go into positive feedback loops.**
3. **We will be able to stop ourselves from crossing more tipping points.**
4. **By now, things are collapsing quickly [the dominos are falling in a chain reaction].**
5. The scenario is grim indeed. If, by 2025, we haven't reached the Paris Climate Accord goals, we are over the climate cliff and global warming is a runaway train. By 2030 we are at the mass extinction level. By now, no technology can save us. By 2040 the seas have risen by ten feet, coastal cities are under water, fresh water is disappearing, oceans are dying, drought produces mass starvation, runaway plagues kill off billions of people, animal extinction is widespread, mass migrations of people are destabilizing governments, and anarchy in the streets are producing Orwellian governments to restore order.

As you read this blog, and other global warming alarmists, you wonder if you are not reading something eerily similar to the apocalyptic visions of Old Testament prophets, Jesus Christ, and New Testament apostles—in particular the prophecies of a dystopian future in the book of Revelation.

Global Warning Alarmist Solutions

The obvious solution is the elimination of man-made emissions. Unfortunately, that comes at a price for industry and consumers. Therefore, governments have to enact draconian measures to take control of this existential crisis, and force energy alternatives, or our grandkid's world faces total extinction. Future creatures will be talking about us like we talk about the dinosaurs.

[New CEI Video Series Looks at the Effects of Green New Deal Policies.](#)

Five Critical Questions

1. **Is Global Warming Real?**
[Is global warming real%3F](#)
2. **If so, what are the causes?**
[5 Causes of Global Warming.](#)
 - 1) **Greenhouse Gases**
 - 2) **Variations of the Sun's Intensity**
 - 3) **Industrial Activity**
 - 4) **Agricultural Activity**
 - 5) **Deforestation**
 - 6) **Earth's Own Feedback Loop,**
 - 7) **SIN** [Romans 1:18-23]
3. **If there are causes, can we fix them?** [Revelation 16:11]
4. **What are the ultimate consequences of attempts to stop global warming?**
5. **What does this have to do with the Bible, the future of the world and Jesus' followers?**
 - **We should be ecologists for the glory of God.** [Gen. 2:15]

The Law of Unintended Consequences

I believe that global warming, like so many problems, is a clear and present danger. But I believe that the solutions proposed by the left, will bring us Babylon and the loss of all our freedoms. On the other hand, in reaction to that, if we aren't careful, Christians will run from the only Savior that truly saves into the arms of an Anti-Christ who will lead us straight to hell. So, keep your eyes focused on Jesus. Look to his Word alone for life's answers. Teach those principles to your children and grandchildren. And our Savior will surely see us through the days ahead!
